Student Reviews

She is very good for explaining the subject . she always give us new opportunity and new question which gives us more thinking ability .
She explains some of the topic very well but some of the topics are just not understood by the students and she doesnt even care. she should change this attitude of her.
She teaches well but she doesnt gives the attendance when we are 15 minutes late for the class.. sometimes we feel bored in her lecture and she takes too much extra lectures. she must understand that
