12	22	1	1	0	0	24	97.5%

Overall Average :92.99%

Student Reviews

Pallavi mam explains very well but she needs to explain the topic little more in detail and needs to be a little slow while solving problems.

Teaching is good. gives many sums for practice. notes are good.

Teacher gives the best in class. solve every student's problem in class. they give proper answer to all things regarding study and other skill.

Good

Very good staff for chemistry and gives proper notes for it and ample of sums too.. notes of staff that are self made are very helpful.

Pallavi mam puts a lot of efforts while teaching which makes the subject easier for us.

we don't have to put more efforts because of her revision in class.

Better teaching skills but content is not delivered accurately.

She has classical skill to teach. she has some attitude toward the students but it is good.

Very good mam ...attitude is great towards students

Need to give proper diagrams and she is good for chemistry

Conducts seminar like part for improving our skills .

The teaching is good but sometimes I didn't get what he is teaching. probably he may be fast according to me
