Student Reviews

Good knowledge of subject
Overall ausome
Always gives unnecessary suggestions on a very little and useless ocassions that happen in the
class
Good
Uses complex terms to explain any concept. if doubts are raised we are told to ask our classmates.
for direct second year students, doubts regarding concepts taught in first year are left uncleared.
The tutorials should itself explain application of the in the practical scenario.
keep the questions same just change the framing to make it more interesting and useful in computer
science
Depth knowledge of the subject
